

## MAJOR DIGGLE WAS SHOT BY FILIPINO

Was Immediately Taken To Manila.

FIRED FROM APPARENTLY DESERTED TRENCHES.

Americans Charged and Repulsed the Enemy—One Private Wounded—No Change in the Belief Among War and State Department Officials That Surrender of Aguinaldo Is Only a Question of Short Time—President Said Before Leaving for Hot Springs That He Expected to Get Word of Surrender of Aguinaldo.

Manila, May 9.—[Special]—Major Diggle, while leading a battalion of Minnesota Volunteers towards San Miguel, about a mile west of Calumpit, was shot in the head today by one of the Filipinos, who fired several volleys from apparently deserted trenches. The Americans charged and repulsed the enemy. One private was wounded during the assault.

Diggle was brought here this morning. His condition is believed to be serious.

President's View of Situation.

Washington, May 9.—[Special]—The There has been no change in the belief among war and state department officials that the surrender of Aguinaldo is now a question of but a short time.

The president's actions also seem to indicate an abiding faith in that proposition, and he said before leaving for Hot Springs, that he expected to get word that Aguinaldo had surrendered unconditionally.

No official advice have been received from Manila up to a late hour this afternoon.

Manila, May 9.—The army gunboats Laguna de Bay and Cavadonga, under command of Capt. Grant, started up the San Fernando river for Guagua yesterday, as was presumed, to establish there a base of supplies for the troops engaged in the northern campaign, but returned Monday. Maj. Gen. MacArthur having failed to connect with the expedition.

Find Rebels Intrenched.

The gunboats found rebels intrenched at Sosmoan and Guagua, on the water fronts of the towns.

The vessels steamed past the works, shelling the occupants and driving them out. Landing parties from the boats entered both towns, capturing at Sosmoan a Spanish captain in uniform, who was ostensibly a prisoner in the hands of the rebels, and also a native officer.

Town Is Burning.

Arriving at Guagua the town and a small gunboat were found to be burning and the natives were evacuating the place in consequence of the bombardment.

At Sosmoan the landing party captured and arrows, besides a lot of band quantity of arms, chieflybolos and tured a number of Filipino flags and a instruments, which the men played as they marched back to the boats.

To Return Up the San Fernando.

Capt. Grant's expedition will probably return up the San Fernando river, after having been re-enforced, on recently purchased light-draft Spanish steamers.

REBELS ARE YIELDING.

Otis Finds Signs of Filipino Weakness Growing Daily.

Washington, May 9.—The war department has received from Gen. Otis a dispatch giving the situation in the Philippines, some parts of which have been omitted by the war department in making it public. The dispatch follows:

"Manila, May 8.—Adjutant General, Washington: Situation as follows: Lawton at Maasin and Balinag; scouting parties to north and east. MacArthur at San Fernando. \* \* \* Population of country between Manila and northern points, held by troops, returning to homes; appear cheerful and contented. Army gunboats operating in rivers. Have cleared country west of MacArthur of insurgents. \* \* \* Signs of insurgents' weakness more apparent daily. OTIS."

Manila, May 9.—The Filipinos surprised the United States forces at San Fernando with a daring trick yesterday. A railway train with an engine at each end was run almost to the American outposts and in plain sight of the town. Before they could be reached a gang of natives sprang off the train, tore up several lengths of the railway track, boarded the train again and steamed away so quickly that there was no opportunity to capture the raiders.

The Nebraska regiment is asking for a temporary relief from duty. Only 375 men of this regiment are left at the front.

HABEAS CORPUS FOR SOLDIERS.

This is the Only Course Left Open, Say War Department Officials.

New York, May 9.—Regarding the announcement by Gov. Thomas of Colorado that he is about to bring proceedings in the Supreme court to deter-

mine the power of the president to send volunteer troops in service in foreign countries a special to the Herald from Washington says:

"It is possible, war department officials say, that the governor of Colorado may be able to set the question of the right of the United States to use the volunteers in foreign service before the courts through the medium of habeas-corpus proceedings.

"This might be done on the allegation that the volunteers are held against their wishes. War department officials say it would be easy to prove by the orders which have been issued that all the volunteers were perfectly free to ask for and obtain their discharge when the treaty of peace was signed. There is no doubt, the authorities say, that the governor would lose his case if brought on this point, but they regard habeas-corpus proceedings as the only course open to him."

Adj. Gen. Corbin Will Not Talk.

Washington, May 9.—Adj. Gen. Corbin did not care today to discuss the story about Gov. Thomas of Colorado further than to say that orders had been issued for the return of the volunteers in the Philippines and that they would come home as rapidly as transportation could be provided and in order of their departure for the islands. Gen. Corbin says he has written a letter to Gov. Thomas which explains the whole situation. The general would not make it public, but said he had no objections to the governor doing so when received.

## SUICIDE OF RACINE COUNTY FARM HAND

PETER HANSON ENDS HIS LIFE WITH SHOTGUN.

Tied Trigger to a Bush, Placed Muzzle At His Head and Fired—Sheboygan Man Who Attempted to Kill His Wife, Held For Trial—Fireman Dubois May Live—State News.

Racine, Wis., May 9.—The body of Peter Hanson, a farm hand of the town of Norway, was found in the woods near Wind lake Sunday afternoon, with part of the head blown away. A double-barreled shotgun lying near by was evidence that the man committed suicide. Hanson left the home of his step-parents, Mr. and Mrs. Rasmus Clauson, last Wednesday with the shotgun. He had been ill and the fact that his mother had been adjudged insane and sent to the Northern asylum made him worse. As he did not come home, a search was instituted and a boy found the body. Hanson tied the limb of a bush to the trigger and placed the barrel to his head and then fired the weapon. An inquest was held and a verdict rendered that he committed suicide while insane. The body was buried today.

Side of Face Blown Off.

Racine, Wis., May 9.—Sidney, the five-year-old son of Major and Mrs. Potts of Western Union Junction, had the left side of his face blown away and his shoulder and arm lacerated Sunday afternoon, by the premature explosion of a shotgun. It took Drs. Sanders and Pope three hours to dress the wounds, and the boy will recover, if blood poisoning does not set in. It appears that Edward Weber loaded a shotgun to shoot rats. He set the gun in his kitchen and his son Charles, nine years of age, entered the room with the Potts boy, and the accident occurred. Both boys stoutly deny that they touched the weapon and, in fact, can tell little about the happening. The presumption is, however, that the gun was picked up or fell over and exploded. The charge was a glancing one.

Kuehnemann Held For Trial.

Sheboygan, Wis., May 9.—Frank Kuehnemann, who shot and attempted to kill his wife a month ago, was bound over for trial today in the sum of \$1,500. He was unable to give bail. The wife told her story and all other witnesses corroborated it. He said that she had returned from work and was in the store of John Henne, when her husband entered and after talking with her a few moments, he drew a revolver and shot her in the shoulder. A second bullet did not take effect.

Old Couple Run Down By Train.

Fond du Lac, Wis., May 9.—A buggy, in which Mr. and Mrs. Frederick Wiltz, of the town of Eldorado, were riding this afternoon, was struck by a passenger train on the Wisconsin Central road, at a crossing in this city. The horse was killed and the occupants seriously hurt. As the couple are 72 and 70 years of age the result may be fatal, though the physicians say they will likely recover. This is the second accident at the crossing within a few weeks.

Fireman Dubois May Live

Oshkosh, Wis., May 9.—Eugene Dubois, the fireman at Paine's sawmill injured in the boiler explosion Sunday night, is still alive, and may recover, though a leg is broken in two places, an arm is broken, his skull is fractured, and he is cut and bruised. The child died this evening. Mrs. Dubois was mangled almost beyond recognition. The cause of the explosion is unknown. It was at first thought that it was cold water, but it seems the boilers were full. The wreck is practically cleared up.

## MILES MUST REMAIN MUTE.

Military Duty Prevents Comment on Inquiry Board's Report.

Washington, May 9.—A close friend of Gen. Miles and an officer of the army, when asked if there was anything for the general to say or do in regard to the report of the beef board, answered:

"There is nothing for him to say or do. The report has been approved by the president, and the president is the commander in chief of the army. Criticism of the report or any other action would be a violation of military duty."

Inquiry was made as to the status of officers criticised and what course they might pursue, and it was stated that as a military legal proposition it was impossible for any action to be taken by any of the officers aggrieved. They might demand a court of inquiry, but this was a court of inquiry which recommended that no further action be taken; this being approved by the president precluded any further inquiry.

Gen. Eagan, who is specified in the report, is not likely to ask for any further investigation. But Col. Maus of en. Miles' staff, the other officer criticised, feels it keenly. His friends say he was among the witnesses whom Gen. Miles asked to be called and was not called by the court.

Klondike's Output.

San Francisco, Cal., May 9.—A letter from Dawson dated April 8, says: "The Yukon Sun estimates the total output of the Klondike region for the winter of 1898-99 at \$20,000,000. It is doubtful if this estimate is up to the mark, which may reach twice that amount. Notwithstanding the predictions of last fall to the effect that the Canadian royalty would stop work, more dirt had been taken out this year on creeks outside of Eldorado and Bonanza than was taken out in the whole district last year. There has been a general exodus to the creeks of men seeking work, and the trails where dumps are thickest are lined with the tents of those seeking employment during the clean up."

Clinton, May 9.—An unfortunate accident befell Arthur Hern, a prominent farmer living northwest of here near Turtle Creek, last Saturday. Mr. Hern had disposed of a number of horses to Clinton men and was assisting in getting the animals started when he became entangled in a long rope fastened to one of the horses. His leg was given a violent twist which broke it just above the knee. The accident is the more serious as the fractured limb is the same one which gave him so much trouble a couple of years ago and for which he lay many weeks in a critical condition. Dr. Chittenden, of Janesville, is treating the injured man and at present the patient is doing well. Amos Thompson, a Dane, living north of here has been adjudged insane by his neighbors and was taken to Janesville Saturday for examination. He has a wife but no children. Ascension Day will be observed at the German church next Thursday at 10:30 a. m. All members of the High School alumni association are requested to hand their 25 cents assessment to George Kemmerer, the treasurer, some time this week. Large quantities of fruit trees have been sent to this point for distribution, many arriving by car load from eastern nurseries. H. N. Gilbert has been in quite poor health at times recently. Mr. and Mrs. W. S. Thom entertained a number of friends on Thursday evening last. J. R. Conley has removed to the Curtiss house on West Milwaukee street, and George Giles now occupies the Sherwood place on Pleasant street. Joseph McMichael is painting the residence of A. B. Rogers. ### Barkers' Corners.

Barkers' Corners, May 9.—The Ladies' Aid society will meet with Mrs. William Palmer Thursday afternoon. Mrs. Charles Brown and mother visited at John Flagler's Sunday. The Young People's society have failed to have meetings for two Sunday evenings, on account of the rain. W. H. Taylor planted ten acres of corn last Saturday. If cleaning house continued through the year, agents would be very scarce. They can't thrive any better than the man of the house. The foundation is laid for the erection of the Pennycooke monument in Mount Pleasant cemetery.

### WAS FORTUNATE RUNAWAY

City Sealer George H. Davey Had Narrow Escape From Injury

Presence of mind was all that saved George H. Davey, city sealer, from serious injury in a runaway accident that took place this morning on North Jackson street, between Wall and Race streets.

While driving south on Jackson street with a double team, the tongue of the wagon dropped to the ground.

The horses started to run and Mr. Davey pulled them into an adjoining yard through which they ran, dragging the wagon in which Mr. Davey was seated.

Through a chicken house in the rear of the yard they plunged, scattering the house and hens in all directions.

By remaining in the wagon Mr. Davey escaped with a few bruises.

The wagon was damaged but the horses escaped injury.

Do your clothes look yellow? If so use Maple City Self-Washing soap. It will make them white.

## PLAY PRESENTED BY MILTON TALENT

"REBEKAH'S TRIUMPH" PROVED A GREAT SUCCESS.

Cast of Characters Well Chosen By Miss Bessie Clarke, Under Whose Management the Play Was Given.—Du Lac Lodge Visited Monday Evening By Neighbors of the Lights.

THE GAZETTE AGENCY  
W. W. CLARKE, Manager,  
Milton, Wis., May 9, 1899.

"Rebecca's Triumph," the play repeated by the Idunas last Thursday evening, was indeed a triumph for the young ladies who participated in that drama. The cast of characters were well chosen by Miss Bessie Clarke, under whose management the play was given. Miss Polly Rice made an excellent "Rebecca" and Miss Mattie West, as "Mrs. Rokoman" acted with a true conception of the character she represented. Miss Charlotte Crumb acted admirably as "Mary," the old nurse of Rebecca. Those who convulsed the house with laughter were Miss Pullan, "the loveliest old maid;" Miss Van Horn, "the Irish Servant;" and Darl Riedson as "Gyp," the pickinny. The other young ladies acted well their individual parts and so added greatly to the performance. The leading role of the play was filled by Miss Bessie Clarke as "Crazy Meg." This was the most difficult to impersonate. Miss Clarke showed exceptional ability as an impersonator and with her flexible voice, grace of style and unflagging zeal in her careful study of the character she represents, there is great promise of her future success in her chosen profession as a public reader.

A delegation of Odd Fellows from Wisconsin and Janesville City lodges, composed of the following named members, Messrs. Fathers, Blanchard, Clinton, Nelson, Plowright, Windbigler, Spicer, Hutchinson, Rice, Grove, Babcock, Brown, Thorpe, Fisher, Schwartz, McIntyre, Bowles, Lee, Morse and Stoddard, visited Du Lac lodge Monday evening. After witnessing the exemplification of work in the initiatory and first degrees the visitors enjoyed a luncheon at the City Bakery.

## TOMORROW NIGHT AT GRAND

The Delightful Comedy Surprise, "A Jolly Night"

The delightful comedy surprise, "A Jolly Night," will be presented at the opera house Wednesday, May 10, with a complete company, including the clever artists, Dean Raymond and Miss Maud Cooling. When this play was first presented in New York, the critics of that city were startled into amazement by the simplicity of its plot and the cleverness of its execution, and marvelled at the fact that so good a play could be built around so simple a matter; and strangest of all, that not one of the hundreds of playwrights in New York had thought of it before. The story is one of mistaken identity when a husband takes advantage of his wife's absence to go out on a lark. He meets a girl whom he invites to supper, and when she asks his name, he gives her the name of a friend who is stopping at his home. It can easily be seen that complications can grow out of this state of affairs, and it remains to be seen if they are taken advantage of. Prices 25, 35 and 50 cents.

**The Importance of taking a good Spring Medicine is well known**—in fact, its necessity is universally admitted. To argue this point is useless—takes up your time and wastes our space. The real question is, what to take? Of course, you want the best. For your blood you want a medicine which cures blood diseases. For your appetite, stomach, toning, dyspepsia, curing qualities. For that tired feeling, dull headache, miserable, all run down.

**Hood's Sarsaparilla** is a true tonic to bone sinew, nerve and muscle—not a stimulant. Now we can prove, we have proved, we DO prove each and every day in the year, that Hood's Sarsaparilla IS the best; that it is unequalled as a general Spring Medicine; that it meets every requirement above named and more. We prove this by thousands of testimonials—not from people anxious to advertise themselves, but from people in the same walk of life as you. And our testimonials tell of cures, real, bona fide CURES. We believe when you have given it a fair trial you will agree that America's Greatest Medicine and best Spring Medicine is Hood's Sarsaparilla. Prepared by C. I. Hood & Co., Lowell, Mass.

## Chicago Live Stock Report.

Chicago, May 8.—Quite as moderate receipts of cattle and hogs as most traders had anticipated came for the opening trade this week and business in each branch showed activity with some gain on closing values last week. Sales of cattle were at prices strong to 10c higher than late values last week and hogs went 5 to 7 1/2c higher than closing sales last week. A larger run of sheep than predicted also found ready outlet at firm and higher prices, fat sheep selling fully steady, clipped lambs strong to 10c higher, and the woolled Mexicans 10 to 15c higher than values paid the last half last week. Receipts were estimated at 16,500 cattle, 26,000 hogs and 21,000 sheep. Demand held out well all along the line and at the noon hour most of the useful offerings in every branch had found sale at better prices than were paid at any time last week.

## War Is Scored as Wicked.

Boston, Mass., May 9.—At a large and harmonious meeting of the American Peace society in Tremont Temple Monday the members strongly condemned the present policy of the government in the Philippines, which was described as wicked, unjust and unfitting any Christian nation.

## Smallpox Appears in Iowa.

Moline, Ill., May 9.—The recently reported cases of smallpox in Leclaire, Iowa, have proved to be the real disease, notwithstanding the denial of a physician and his statement that the ailment was only an aggravated outbreak of chickenpox. The Iowa state board of health made a thorough examination of four suspected cases there and declared it to be smallpox. Dr. Wessell of the Illinois state board of health, in this city, was notified. Port Byron, opposite the infected town, is quarantined against Leclaire. The citizens are in a panic and numbers of families are leaving.

## IVORY SOAP PASTE.

In fifteen minutes, with only a cake of Ivory Soap and water, you can make a better cleansing paste than you can buy.

Ivory Soap Paste will take spots from clothing; and will clean carpets, rugs, kid gloves, slippers, patent, enamel, russet leather and canvas shoes, leather belts, painted wood-work and furniture. The special value of Ivory Soap in this form arises from the fact that it can be used with a damp sponge or cloth to cleanse many articles that cannot be washed because they will not stand the free application of water.

DIRECTIONS FOR MAKING.—To one pint of boiling water add one and one-half ounces (one-quarter of the small size cake) of Ivory Soap cut into shavings, boil five minutes after the soap is thoroughly dissolved. Remove from the fire and cool in convenient dishes (not tin). It will keep well in an air-tight glass jar.

## Sherman Not a Candidate.

Cincinnati, O., May 9.—Harry R. Probasco, ex-United States attorney here and relative of John Sherman, has recently been in correspondence with Mr. Sherman in reference to the rumors that the ex-secretary of state would be a candidate for governor of Ohio. Mr. Sherman says: "You are entirely right in supposing that I have no thought of being nominated or elected governor of Ohio. I do not want the office and could not accept it in my present condition of health and strength. No man at the age of 76 ought to undertake the performance of the many details of an executive office. You are authorized to say that I am not a candidate for governor, do not wish my name mentioned in that connection and would not accept it if nominated."

## THIS DAY IN HISTORY.

1700—Nicholas Ludwig Zinzendorf, count, founder of Moravian Brethren, died at Herrnhut, in Lusatia, born May 26, 1700. Zinzendorf founded a religious settlement at Herrnhut for Moravian refugees. He conceived the idea of giving practical life to the ancient organization and became a preacher and bishop of that church. In 1741 he visited America and established missions at Germantown and Bethlehem, Pa. Two years later he returned to Europe and spent his last days at Herrnhut.

1775—Jacob Brown, general in 1812-14, born in Bucks county, Pa., died 1838.

1800—John Brown, "Ossawatimie," born 1803—Stonewall Jackson died; born 1824.

1864—Major General John Sedgwick, commander of the Sixth corps, Army of the Potomac, killed by a sharpshooter at Cornwall, N. Y., born at Cornwall, Conn., 1813.

1891—Mme. Blavatsky, famous theosophist, etc., died in London; born in Russia about 1831.

1900—Captain J. D. Johnston, a noted naval veteran, commander of the Tennessee, at the battle of Mobile Bay, died at Savannah.

people, and this nation would be defiant of its duty if at the command of a youthful adventurer it now abandoned them.—Luther Laflin Mills.

Judge Richard S. Tutbill, of Chicago, said, in the course of his speech at the loyalist mass meeting at the auditorium on Sunday:

"Today the people of the United States know they have a chief magistrate who in early manhood upon many battlefields gave proof that he was willing to give his life in her defense, and greater love hath no man than this."

Well said, Judge Tutbill, and your many Janesville friends are glad to echo that sentiment!

J. Laurence Laughlin would do well to resign his professorship in the Chicago University, and take a course of study in patriotism under Luther Laflin Mills.

Again do we feel justified in the assertion that the grade of lieutenant general be revived for general merit rather than for General Miles.

General Miles' talk, is now appears, was as much out of place as was the canned beef in the tropics.

## PAUL SCHRADER ACQUITTED

Charges Made By C. J. Mink Are Not Sustained In Court.

Pitiful features developed during the trial of the Mink-Schrader case in the municipal court. The defendant, Paul Schrader, was acquitted very promptly of the charge of assaulting C. J. Mink, although only a small part of the evidence available in his behalf could be presented.

An orphan girl, the daughter of Mink's former wife, has been working at Schrader's for seven months. Previous to that she was in the poor house. All who know the Schraders say they have done their best to give the girl a good home. Mr. and Mrs. Mink have visited her several times but she dreaded to see them and when they came April 22 she locked herself in the woodshed. Schrader said that all they wanted of the girl was to get her wages and they ordered them off the premises. Mink went up on the porch of the house when Schrader took him by the arm and escorted him off the premises. Both men carried a cudgel and Mink claimed that Schrader assaulted him. Only two witnesses were sworn on the part of the State, Christian J. Mink and his wife, Augusta Mink.

On the part of the defense Paul Schrader, John Kittridge and A. M. Miller were sworn. All testified emphatically that no blows were struck by either party and that Schrader merely took Mink by the arm and told him to keep away from there.

The girl over whom the trouble arose is hardly more than half-witted. Abuse which she suffered several years ago is said to have affected her mind.

## PRIVATE POSTOFFICE.

Established for the Benefit of the German Emperor.

The German emperor has a post-office of his own with officials detailed especially to handle the voluminous mail that comes every day addressed to him. All letters are classified under three heads—"private," "official," and "immediate." Private letters are handed over to the Emperor, unopened, those marked "official" land in the civil cabinet of the Kaiser if they contain petitions by civilians, while those of a military character go to the Military Cabinet. Chiefs of these two departments make all the necessary inquiries regarding the communications, and there prepare the answers in accordance with the regulations for official letters. These answers are taken to the Emperor, who expresses his approval by affixing his signature. Answers are then dispatched by special messengers to their destination. The messengers used in this service are the most trustworthy men who can be found.

## Polecat Skins.

Lexington (Va.) Spec. Baltimore Sun: There is quite a thriving trade carried on here in the skins of furbearing animals, especially the polecat. One dealer shipped about a hundred skins of this animal to northern markets. He stated that they were used in making fine cloaks, and needed only proper dressing to make them suitable for wearing by the most fastidious. Each winter he does a good business in the pelts of this animal and supplies traps to persons who will engage in the business of trapping raccoons, polecats, minks and otters. Quite a profit is derived by some parties who follow trapping these animals. The value of the polecat skin stands next in rank to the skin of the otter and mink, both of which are rare now. Occasionally one of the latter is secured in a mill dam or along the river course unfrequented. One person purchased from a local dealer during the past winter twenty dozen of steel traps to use in his trapping business. Great care has to be exercised in removing the skin, and the person has to be an expert, or the value is impaired or the skin rendered worthless.

## Terrible Leap.

A madman jumping from one of the highest steeple tops in this part of Spain was the horrifying sight that met the gaze of the passers along the streets in this city a few days ago. A large crowd was near the cathedral at the time, it being near midday. Suddenly a man was descried climbing to the second and then the highest tower of the edifice. Having reached the top he threw his hat out and then jumped headforemost to the street below.

## Curious Postal System.

In certain parts of Sweden, where the most absolute confidence is reposed in the honesty of the people, a very informal postal system is in vogue. As the mail steamer reaches a landing place a man goes ashore with the letters, which he places in an unlocked box on the pier. Then the passer-by who expects a letter opens the box, turns over the letters and selects his own, unquestioned by any one.

## M'INTYRE FAVORED FOR A TRUSTEE

### JANESVILLE MAN BACKED BY MANY VETERANS.

W. H. Sargent Post Will Ask His Election As a Member of the Waupaca Home Board - A Place That He Is Eminentely Qualified to Fill - Circular Letter Issued.

Janesville members of the Grand Army of the Republic are presenting the name of W. J. McIntyre as a candidate for the position of trustee of the Waupaca Soldiers' Home, and the Janesville man is getting strong support. The following circular has been sent to every Post in the state:

Headquarters W. H. Sargent Post, No. 20, G. A. R., Department of Wisconsin.

Janesville, Wis., May 6, 1899—Dear Comrades—You are doubtless aware that two trustees of the Wisconsin Veterans Home, at Waupaca, retire from office soon. An election will take place for the same, to fill the vacancy, at the coming department encampment, in Milwaukee. At a regular meeting of this Post last night, the name of our much esteemed comrade, W. J. McIntyre was raised as our candidate for one of these trustees, the expression being emphatic and unanimous. The Post, which will attend the encampment in a body, will present the name of our comrade, and use every honorable means for his recognition and election. Comrade McIntyre was one of the heroes of the Allatoona, being a member of the Twelfth Wisconsin Battery, and has a war record second to none. He is a man of sterling worth, beloved by all, and is possessed of a splendid education and marked executive ability. Comrade McIntyre has served Rock county three successive terms as county clerk, and it can be truthfully said we never had a more efficient and popular officer. His retirement therefrom (where his fitness for executive ability has been so often tested), should, we think, be evidence of personal qualifications.

We sincerely ask your co-operation, at the Encampment, in this our earnest wish, and for the same will heartily thank you in F. C. & L.

Comrade McIntyre is now serving as junior vice commander of this post. S. C. BURNHAM, Post Commander, E. O. KIMBERLEY, Sen. Vice, J. L. BEAR, Adjutant.

Mr. McIntyre is especially fitted for a position of the kind and his selection would insure the service of an able, conscientious, and thoroughly reliable officer. His Janesville friends are enthusiastic in their support, and their is every indication of his success.

Meet at Milwaukee. J. C. Spellman has received a letter from the Secretary of the Association of Survivors of the First Battle of Bull Run, announcing that the fifth annual reunion of the association will be held at the club room of the Hotel Pfister, at Milwaukee on May 13, at 1:30 o'clock sharp, as the reunion occurs during the meeting of the state encampment, and it will be convenient for all interested to attend.

LOBSTER, NEWBURG.—Plunge the lobster into hot water, not boiling. Take the lobster in your hand and put the head down in warm water. When the water covers it, the lobster will smother, then bring to boiling point and allow it to simmer gently three-quarters of an hour, adding salt when partly done. Cut the meat of the lobster into small pieces, pour over four tablespoonsful of sherry and put aside. Take a gill of cream, mix carefully together two table-spoonsful of butter, which amount is required for each pint of lobster; add flour. Before the butter is melted add the cream. Stir carefully until it reaches the steaming point, then add a little at a time to the yolks of three hard-boiled eggs, which should be rubbed to a paste, add a half teaspoonful of salt, one-eighth of a teaspoonful of ordinary white pepper and one-fourth of a teaspoonful of paprika. Have the sauce thick and creamy; then add the lobster, just a suspicion of meat, and when thoroughly heated it is ready to serve. The beauty of Newburg dishes is to have them smothered hot and served at once. Canned lobster is also used in making Newburg.

## BOARD OF HEALTH IS AFTER GRAHAM

### STATE AUTHORITIES WORRIED OVER HIS ESCAPE.

Negro Small Pox Patient Who Escaped From the Pest House Here Saturday Night Is Causing Much Anxiety—His Whereabouts Are At Present a Mystery.

Members of the State Board of Health, with headquarters at Madison, have been notified of the escape of Daniel Webster Graham, the negro small pox patient, from the Janesville detention hospital.

They are now making an extra effort to locate Graham. If he is in the Badger state, and again place him in a pest house to prevent a general spread of the dread disease.

The Janesville police up till a late hour this afternoon had not the slightest clue of the whereabouts of the fleeing negro, nor are they anxious to learn of his hiding place.

If he has only left this locality and the county as well it is all the local authorities ask.

George Phelps, the nurse who says that Graham held him up with a knife and robbed him of a watch and chain, \$10 in money, and suit of clothes, says that Graham was still a sick man and that he was in a state where he could expose people to the disease.

Officers in the surrounding towns have been notified and are keeping a sharp lookout for Graham.

A good description has been furnished and if in the state he will in all probability soon be located.

### ST. MARY'S CONGREGATION WANT GRADE ESTABLISHED.

Present Condition of North First Street Is Interfering With the Erection of the New Edifice—The Thoroughfare Is Sadly in Need of Improvement.

Before the members of St. Mary's Catholic church commence the erection of their new edifice at the corner of North First and Wisconsin streets, they first request that North First street be graded.

The street is now in such a condition that traveling is impossible by team from Bluff to Wisconsin streets.

The thoroughfare is for the most part sandy soil and during the past two years hundreds of loads of sand have been taken from the street a few rods west of the present church.

Before building commences on the new structure the committee that now has the work in hand, intend to have an established grade placed by City Engineer Brown and the matter brought before the common council.

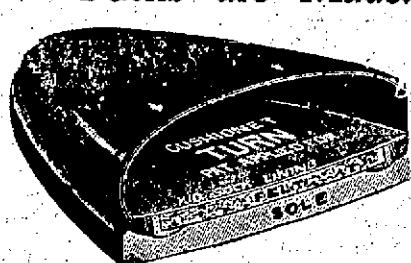

Following is the building committee that has been appointed to look after plans and specifications for the new edifice: Fred Reesling, J. H. Burns, James Campion, Sr., John Doran, Peter Nouses, John Campion and William Kennedy.

"We don't feel much like rushing the work until we know what is to be done by the city in reference to the grading of North First street," said one of the building committee today. "The street is badly in need of an established grade, and has been for years."

## See How Cushionet Turns are Made.

PATENT APPLIED FOR.

Heaviest soles ever shown on fine turn Shoes. Uppers are protected—will not rip and will outwear any ordinary Shoes. The felt cushion is stitched to a heavy canvass which is then covered by the kid sock lining so that the foot does not come into contact with the felt and there are no complaints regarding these Shoes being too warm for summer wear.

## The Advantages

Are in the heavy soles and heavy filling, forming a much better TREADING SURFACE, and in keeping the foot up and away from the hot side walks. The felt cushion conforms to the shape of the foot. We have obtained exclusive sale of these boots for ladies—A PERFECT STREET WEAR BOOT. Don't fail to see them. Also the Cushionet Ease Welts. We have all sizes and widths.

## RECOMMENDS GOLD STANDARD.

Currency Committee Bill Will Emphasize Financial Issues.

Washington, May 9.—A specific provision for the maintenance of the gold standard is made in the bill drafted by the Atlantic City currency committee for submission to the next congress. This is in keeping with the platform pledges of the republican party, and should the bill be enacted into law it will emphasize the financial issues of the next campaign.

Other than this single-standard provision, the essential features of the bill are confined to three main principles:—protection of the gold reserve, by placing returned greenbacks in separate fund and paying them out only for gold; issue of national-bank currency to the face of bank deposit, and the organization in the small cities of national banks with a capital of \$25,000, instead of \$50,000, as at present.

Desiring to observe the courtesy of first submitting the bill to the subcommittee of the senate finance committee, the members of the house caucus committee, who met at Atlantic City, still decline to talk for publication of details of the measure agreed upon at that conference.

Upon excellent authority, however, it may be stated that the foregoing embodies all the essential features of the new bill.

## THE BASEBALL REPORT.

Games Played Yesterday in the Three Leading Leagues.

Thanks to Wolverton's home run, Chicago squeezed by Philadelphia yesterday and gained a clear title to second place. The Phillies did not play, and Chicago had only to take the fifth game from the hapless Cleveland team. St. Louis also came a little closer by having no game. Of the other clubs, Boston kept up its see-saw with Brooklyn by winning a shut-out, Pittsburgh continued to climb at Louisville's expense, and New York laid out Washington. The games:

## GOV. OGLESBY BURIED.

Body of Former State Executive in Last Resting Place.

Springfield, Ill., May 9.—The private funeral of former governor Richard J. Oglesby was held Monday morning at the Chapel of St. John the Baptist, at Ogleshurst, near Elkhart, where the remains have lain in state since the public funeral, April 28, guarded by a detail from Company H, Fifth Illinois Infantry, of Decatur.

The services were conducted by Archdeacon Frederick W. Taylor, rector of St. Paul's Pro-Cathedral of Springfield, and were attended by the family and intimate friends from Chicago, Springfield, Decatur, Bloomington, Lincoln and other cities. Burial was in the cemetery near the chapel.

## NEVER TOO OLD TO BE CURED.

S. S. S. is a Great Blessing to Old People. It Gives Them

New Blood and Life.

Mr. J. W. Loving, of Colquitt, Ga., says: "For eighteen years I suffered tortures from a fiery eruption on my skin. I tried almost every known remedy, but they failed one by one, and I was told that my age, which is sixty-six, was against me, and that I could never hope to be well again. I finally took S. S. S. and it cleansed my blood thoroughly, and now I am in perfect health."

## S. S. S. FOR THE BLOOD

is the only remedy which can build up and strengthen old people, because it is the only one which is guaranteed free from potash, mercury, arsenic and other damaging minerals. It is made from roots and herbs, and has no chemicals whatever in it. S. S. S. cures the worst cases of Scrofula, Cancer, Eczema, Rheumatism, Tetters, Open Sores, Chronic Ulcers, Boils, or any other disease of the blood. Books on these diseases will be sent free by Swift Specific Co., Atlanta, Ga.

Age does not necessarily mean feebleness and ill health, and nearly all of the sickness among older people can be avoided. Most elderly people are very susceptible to illness, but it is wholly unnecessary. By keeping their blood pure they can fortify themselves so, as to escape three-fourths of the ailments from which they suffer so generally. S. S. S. is the remedy which will keep their systems young, by purifying the blood, thoroughly removing all waste accumulations, and imparting new strength and life to the whole body. It increases the appetite, builds up the energies, and sends new life-giving blood throughout the entire system.

Mrs. Sarah Pike, 477 Broadway, South Boston, writes: "I am seventy years old, and had not enjoyed good health for twenty years. I was sick in different ways, and in addition, had Eczema terribly on one of my legs. The doctor said that on account of my age, I would never be well again. I took a dozen bottles of S. S. S. and it cured me completely, and I am happy to say that I feel as well as I ever did in my life."

## ARE ANALYZING STARLIGHT.

Signs Everything Is Evolved from a  
Primal "Something."

At the Royal Society recently Sir Norman Lockyer discussed a subject very interesting in itself and raising questions of great scientific importance. For some years past the constitution of the stars has been studied by distinguished men of science; and he has now brought together in a synoptic form the results of recent investigations. The stars are so many suns, which, like our own, are probably centers of planetary systems, though differing from it in degree, if not also in kind. That for some time has been generally admitted, but there, until less than forty years ago, the matter rested. It was then found possible to apply the spectroscopy, which had previously been confined to the study of terrestrial substances, to the examination of the sun, and to extend the investigation to the stars was the inevitable, though a more difficult step. Their spectra are found in some respects to differ from; and others agree with, that of the sun, and can be arranged into groups accordingly. The identification of the lines in the stellar spectra has progressed rapidly of late years; and the outset of spectroscopy this could not have been done, because the experimenter was unable to raise several substances to temperatures high enough to give him their spectra. That difficulty has been overcome, first, by the use of the electric arc and then by the Spottiswoode coil, the intense heat of which forces almost everything to submit itself to examination. These led to the discovery that certain substances at ordinary high temperatures give a spectrum consisting of many bright lines. But at yet greater heat these disappear, and are replaced by a much smaller number of lines, which are not exactly correspondent in position with the others. This fact suggests either that the element has now assumed very different properties, or, as Sir Norman Lockyer maintained, that it is, so to say, in a nascent condition. By arranging the spectra of a number of stars side by side and applying the principles of analysis established by earlier investigations, he ascertains a relation existing between the temperature of the stars themselves and the appearance or disappearance of a number of elements known to the chemists. Thus groups may be formed, each of which contains stars at approximately the same temperature. At the bottom of the series is our sun and Arcturus, the upper limit being formed by a star in the constellation Argus, which is the hottest one at present known. In the latter the spectrum is a very simple one, and the only terrestrial elements recognized are hydrogen and helium. Besides these, the abnormal spectrum of the former, called proto-hydrogen is visible. That,

however, soon disappears, but hydrogen continues to the bottom of the list. Then the "proto" forms of various elements begin to show themselves. These, in turn, vanish, and the ordinary group of the lines corresponding with the element itself appear, till, in the lower groups, familiar substances, as already said, are plentiful. This, however, is not all. If an element appears at a particular temperature—if at a higher one it was there under a different form; and if at the highest of all it was invisible—we are justified in assuming that even here a substance existed, out of which the element was produced in the process of cooling. These researches, like those summarized a few years back by Sir William Crookes, lead to the conclusion that even chemical elements are only special modifications of a primordial "something," and that all the substances of this and other globes have come into being by a kind of evolution the simple becoming complex as the temperature fell.—London Standard.

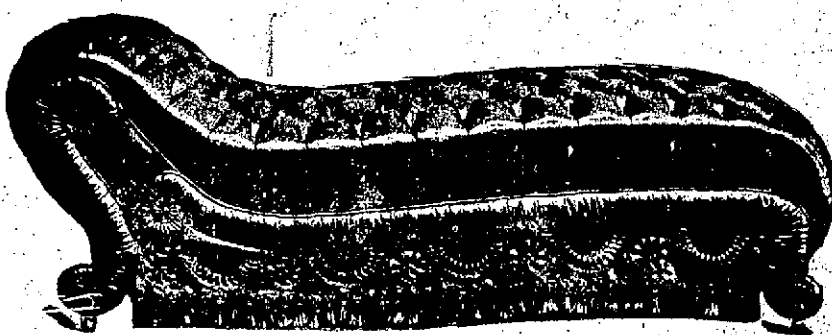

## TELLING CHARACTER BY HATS.

Amateur Divinations by Very Strange Means.

Character reading is the very latest fashionable diversion of social Chicago. Not professional character reading, but amateur divination by society people themselves. The old style palmistry is now supplemented by character reading by means of a study of a person's handwriting, of his facial lines and expressions, of his walk, of even the clothes he wears. "I can tell more about a woman's personality from examining her shoes and hat than I can by watching her face," remarked a clever man the other day. "I always look first at her shoes, then at her skirt, and finally at her hat. The waist or coat I never remark at all. Sometimes I am mistaken in the shoes, because the pair may be new and stiff and have not had a chance to become part of the individual. But the hat is never debatable territory. Its shape, its trimming, its size and the way it is placed on the head all tell something of the owner's personality. A hat is to me the typical straw that denotes the outlines of the wearer's character."

## Lectures for Artisans.

Hanover is to establish a series of lectures and demonstrations for the instruction of artisans and apprentices in all trades, and if they are found successful they will be instituted throughout the empire. There are to be model workshops and exhibitions of tools and machinery, together with instruction in bookkeeping and in making estimates. The first course of lectures will be to cabinetmakers, locksmiths, shoemakers and tailors, other trades being taken up one after another, the intention being that higher instruction in all shall be placed within reach of every learner or operative.

## Where Does the Money Go?

A puzzle to many people; so much so that the thought of tracing expenses fairly scares them. But whether you trace them or not the fact remains the same—that many dollars can be saved each year on your provision item alone by trading at this store. These words are truth. We offer more bargains in high qualities than any other house in Southern Wisconsin, and they are not occasional either. One continual round of money savers.
